

Anza hl	Unternehmen	Webseite	Reiseteilnehmer/Ansprechpartner	Beschreibung
1	Microlab	www.microlabprogetti.com	Giulio Sfoglietti	Radiation Hardened Low energy Airborne Communication Kit, Aeroflex processor-based Radiation Hardened CPU Board; GaAs/GaN Microwave and MM-wave devices, Full Motion Simulation, Ingegneria/Architettura Aeronautica
2	Marlen Italia società consortile a r.l. (Unternehmensverbund)	www.retemarlen.com www.comeel.eu www.dimacsnc.com	Marco Zampana	Research of partners with know-how of the sector of galvanized coatings aimed to create a common plant in Lazio region. Research of partners for the development of a prototype for the production of energy from a perpetual motion wheel (currently not patented), also through the participation in Calls for Horizon 2020. Research of partners for the development of a mechanical prototype for lifting of aircrafts in maintenance, also through participation in Calls for Horizon 2020. Research for clients who intends to carry out mechanical parts of prototypes in unique pieces.
3	IPTSAT srl	www.iptsat.com	Caroselli Valerio	Services offered and requested: EARTH OBSERVATION, REMOTE SENSING, ITALIAN MARKET HUB, PMI Incentives, CLUSTER RULES, ORGANIZATION, BUSINESS PLAN, PRODUCT COMMERCIAL PARTNER FOR ITALY, H2020 PARTNERSHIP, UNIVERSITY, RESEARCH CENTER PARTNERSHIP, UAV, drones, air traffic control ATC. : Services requested for UAV, drones,, ENERGY EFFICENCY, augmented reality, 3D world, PRECISION FARMING, SMART AGRICOLTURE,
4	AGT Engineering	www.agtgroup.it	De Luccia Marco, Ugolini Filippo	specialised in industrial and applied research, technology transfer, engineering and prototyping, as well as project management, marketing and sales of projects and systems in the areas of: energy generation (conventional, advanced and renewable); transportation (aerospace, terrestrial and marine); application of innovative materials and processes to the Industrial companies.
5	Komponent srl	www.komponentsrl.com	Paola Kogoi	developing solutions in Mechanical automation and Logistic. Electronic control process - Data Matrix code for monitoring process – Devices for customizing standard machines and develop new products. - How counter the massification of production from Eastern Europe and Far East (low labor costs) with Italian creativity and German strong production
6	Tagliaferri srl		Buccolini Fabio	IAQ (Indoor Air Quality), HVAC (Heating Ventilating Air Conditioning) efficiency, PM10/PM2.5 Indoor Pollution, HVAC Energy Efficiency, HVAC Building Automation, HVAC Smart Ducts
7	Elesia	www.lesia.it	Claudio Marchesini	Control and Drive. Environmental monitoring. Control and supervision for physical tests, Test and Simulation, Security and Building automation, Real-time signal processing, Display and remote supervision, Remote control and Remote management, Data transmission, Control of turbines and marine propulsion, SCADA - Image processing, Control of fast processes, axis control and handling
8	Airworks	www.air-works.eu	Cristian Scaramozza	Airframes for UAS & Air Defence Systems, Spacecrafts & Space Instruments structures, Aerostructures, Jigs & MGSE, Composites.
9	BV tech	www.by-tech.it	Massimo Trentini	SW systems, telecommunication networks and appliances (implementation, management and selling), Support and maintenance services.
10	Gruppo Plocco	www.gruppo-plocco.it	Dott. Gianluca Porinelli, Giovanni Plocco	Special machining of critical equipment components in titanium and light alloys, light and medium-heavy carpentry, machining, electromechanical Assiemature, painting of plastic and metal parts, Cold pressing of metallic materials (including major: micro-alloyed-inox-aluminum-steels), Design and construction of molds, equipment and special machinery, Design and construction of elastic elements rubber-metal for rail vehicles
11	Rete di impresa ATEN IS (Unternehmensverbund)	www.atenis.it www.sigmaconsulting.it www.sds1.it www.dune-sistemi.it www.wave-srl.com www.falconlog.it www.a3r.it www.blue-thread.eu www.spacexe.com www.epmsistemi.com www.unidata.it www.infosolution.it www.quanta.com/specializzazioni/specializzazioni-aerospaziale www.evoelectronics.it www.uas-group.com —	Lino Fiorentino	SATELLITE ESM/ELINT Equipment, CONSTELLATION for Fine localization, Data fusion with SAR and IR sensors, Integration with Ground equipment, Intelligence, Command & control
12	Act solutions	www.act-operationsresearch.com/Industries/Aerospace_Defence.html	Ing. Raffaele Maccioni, Ing. Fabio Polizzi	Design and optimization of reengineering and dimensioning operations, RAMS (Reliability, Availability, Maintainability and Safety) analysis, Optimal fleet dimensioning for supplies, Maintenance and supply processes, Process improvement with simulation and Lean and Six Sigma techniques, Optimal geo-positioning of resources, Emergency simulation (e.g., catastrophe and special situations) and disaster recovery, Cyber attac modelling and simulation, Warehouse optimization, inventory dimensioning and management
13	Consorzio Scire	www.consorzioscire.it	Prof. Gino Belli	Mono- and multi-dimensional simulations, Ground cooling for on-board electronic system of aircraft (developed for F35), Design and optimization of Unmanned Aircraft, Fluid dynamic
